I have a 1961 Fender Showman amplifier for sale, which I used for many years with my bass guitar. At present it is in S. Africa, but I am prepared to have it sent to the UK if anyone would like to purchase it.

It has its original Lansing 15" speaker and is in perfect working order. The only modifications I've made are:

- The electrolytic capacitors which are now extra heavy-duty
- The mains transformer has been replaced with a large toroidal one

I am open to any reasonable offer that would justify the cost of shipping to UK. For more details please e-mail me at [corlettj@mweb.co.za](mailto:corlettj@mweb.co.za)

Regards,

John Corlett
